

Library Page

In the Library page, you can review your imported and reference datasets and any macros that you may have created. You can also import new data from this page.

The screenshot shows the Library Page interface. On the left is a sidebar with navigation options: Library, All Data, Imported Datasets, References, and Macros. The main area is titled 'All Data' and includes an 'Import Data' button and a search bar labeled 'Find Datasets... (/)'. Below this are filter tabs for 'All', 'Owned by me', and 'Shared with me'. A table lists datasets with the following columns: Name, In Flows, Source, and Last Updated. The table contains eight rows of data.
