

Recipe Navigator

Through the Recipe Navigator, you can locate and open any recipe from the current flow in the Transformer page. To open the Recipe Navigator, select the drop-down next to the name of the current recipe in the Transformer page.

This navigator can be helpful in fixing dependency issues between your current recipe and the recipes and datasets that it integrates from the flow. See *Fix Dependency Issues*.

NOTE: The listed recipes are constrained only to those that appear in the same flow as the currently loaded recipe.

NOTE: You can only open recipes in the Transformer page. To open an imported dataset, you must first create a recipe for it and then edit the recipe. See *Flow View Page*.

Recipe List tab

Through this tab, you can review the list of recipes in the flow.

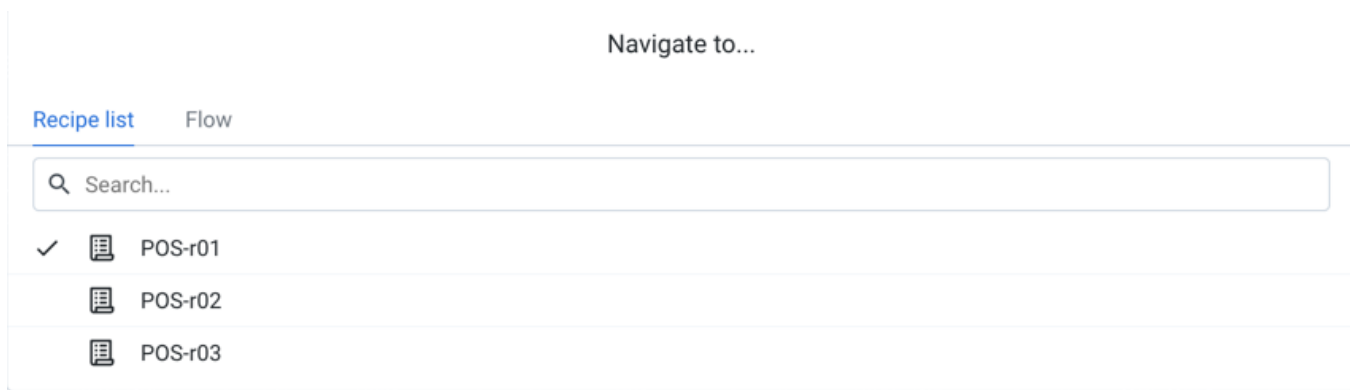

Figure: Dataset List tab

To locate a recipe to load, use the Search box or browse the list.

Flow tab

This tab allows you to browse your current flow.

Tip: The Flow tab is particularly useful in helping to diagnose dependency issues, in which changes in one recipe cause breakages in another recipe. When the error appears in the recipe panel, you can use this tab to locate the breaking recipe and load it into the Transformer page for further investigation. See *Fix Dependency Issues*.

Navigate to...

Recipe list Flow
