

API Password Reset Request Create v4

This is the latest version of the APIs.

Contents:

- *Required Permissions*
 - *Request*
 - *Response*
 - *Reference*
-

Create a new user.

Version: v4

Required Permissions

The authenticated user must be an admin.

NOTE: Each request to the Trifacta® platform must include authentication credentials. See *API Authentication*.

Request

Request Type: POST

Endpoint:

```
/v4/passwordresetrequest/
```

Request Body:

The following properties are supported:

```
{
  "accountId": 6,
  "email": "joe@example.com",
  "originURL": "http://loginpage.example.com:3005/"
}
```

Response

Response Status Code - Success: 201 - Created

Response Body Example:

```
{
  "code": "<AccountResetURL>",
  "email": "joe@example.com"
}
```

Reference

Request properties:

Property	Description
accountId	Internal identifier of the user whose password should be reset
email	The email address to which to deliver the password reset email. This value should correspond to the login for the specified account. For more information, see <i>API People Get v4</i> .
originURL	The URL of the login page for the Trifacta application

Response properties:

Property	Description
code	The password reset code generated for the specified user. <div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> <p>NOTE: This endpoint does not generate an email or perform the reset. You must use the reset code to build a reset URL to send separately to the specific user. See below.</p> </div>

The above must be built into a URL in the following format:

```
<http|https>://<host_name>:<port_number>/password-reset?email=<user_id>&code=<AccountResetCode>
```

URL element	Example value	Description
<http https>	http	HTTP protocol type
<host_name>	loginpage.example.com	Host of the Trifacta application
<port_number>	3005	Port number used to login to the Trifacta application
<user_id>	joe@example.com	User ID (email address) of the user whose password is to be reset
<AccountResetCode>	CD44232791	Password reset code

For more information, see *API Overview*.
