

Locale Settings

Trifacta® Wrangler supports a tier-based scheme for applying locale settings.

NOTE: Locale settings apply only to the inference and validation of data in the Trifacta application. Underlying data is not affected by changing locale.

NOTE: After saving changes to your locale, refresh your page. Subsequent executions of the data inference service use the new locale settings.

NOTE: When locale is changed, data type validation is affected only on subsequent executions of the data type inference service.

Product Areas Affected by Locale

Datetime

- Data type inference more accurately recognizes Datetime values based on locale settings.
- Suggestion cards containing Datetime transformations and example previews utilize locale settings.
