

Google Cloud Storage Browser

In Cloud Dataprep by TRIFACTA® INC., the Google Cloud Storage browser enables you to browse, specify, and filter the files to which you have access.

The browser appears in the Google Cloud Storage tab when you import a dataset. See *Import Data Page*.

NOTE: Interactions with Google Cloud Storage are determined by user permissions. For more information, see *Using Google Cloud Storage*.

Browse Google Cloud Storage:

Use the links and icons to browse for files and folders in the Google Cloud Storage tree structure.

NOTE: Avoid using the Back button on your browser, which exits the Google Cloud Storage browser without applying changes.

Identifier	Type	Description
	Bucket	Click the link to explore the folders and files stored in the bucket.

	Folder	<ul style="list-style-type: none"> • Click the Plus icon to select all readable files in this folder. • Click the text link to open the folder and browse further. <div data-bbox="406 233 1456 323" style="border: 1px solid #c8e6c9; border-radius: 10px; padding: 10px; margin: 10px 0;"> <p>Tip: When you open a folder, a reference to it is added to the Path value. You can modify the path value manually, which may be a faster way to navigate up a deep directory structure.</p> </div> <div data-bbox="406 348 1456 430" style="border: 1px solid #c8e6c9; border-radius: 10px; padding: 10px; margin: 10px 0;"> <p>Tip: Sizes are displayed next to files. They are not displayed next to folders.</p> </div>
	File	Click the Plus icon to select this file.

Specify Google Cloud Storage Path:

In the Google Cloud Storage browser, you can specify an explicit path to resources. Click the Pencil icon, paste the path value, and click **Go**.

Filter Files:

To display a subset of files, enter a string in the Search box. The filter is applied as you type and matches anywhere in the name of a currently displayed file or folder.
