

# Login

**i NOTE:** Administrators of the platform should change the default password for the admin account. See *Change Admin Password*.

To login to the Trifacta® application, navigate to the following in your browser:

`http://<host_name>:<port_number>`

where:

- `<host_name>` is the host of the Trifacta application.
- `<port_number>` is the port number to use. Default is 3005.

If you do not have an account, click **Register**.

- If self-registration is enabled, you may be able to immediately login after registering.
- If Kerberos or secure impersonation is enabled, an administrator must apply a Hadoop principal value to the account before you can login. Please contact your Trifacta administrator.
- System administrators can enable self-registration. See *Configure User Self-Registration*.

After you login, you are placed in the Flows page, where you can create and manage your datasets and flows. See *Flows Page*.

- If you are using S3 as your base storage layer, you or your Trifacta administrator must provide the AWS access key, secret, and storage bucket identifiers to connect to your storage. To do it yourself, click **Configure Storage Settings**. See *User Profile Page*.
- For a basic walkthrough of the Trifacta application, see *Workflow Basics*.

## To logout:

From the Settings menu, select **Logout**.
