Figure: Projects Menu

To view all of the available projects, click **View more projects**:

Tip: You can also search by project name or project Id.

Tip: Some projects may appear disabled. If you hover over an entry, you may review the reason why you cannot access it.

NOTE: To browse a project, it must have a least one folder created for it. For more information, please contact your Google Cloud Storage administrator.

Figure: Choose a project

NOTE: After choosing a project, you may be required to permit Cloud Dataprep by TRIFACTA INC. to access resources.

You can begin creating flows and importing datasets.

NOTE: You can change the locations where you upload files and store job results and other temporary data. See *User Profile Page*.
