

Export Basics

After you have iterated on your recipe and generated a result that is to your satisfaction, you can export the transformed data.

Steps:

1. In the left nav bar, click the Jobs icon.
2. In the Jobs page, click the job identifier to open the job in the Job Details page. For more information, see *Job Details Page*.
3. Click the Output Destinations tab.

Export by:

- **Direct file download:** Click the file to download. From its righthand context menu, select **Download result**.

NOTE: Some file types cannot be downloaded.

- **Create new dataset:** You can create a new dataset from a generated output. Click the file. From its righthand context menu, select **Create imported dataset**. For more information, see *Build Sequence of Datasets*.
- **Publish:** If Trifacta® Wrangler Pro has been integrated with an external datastore, you can publish your results to a designated target. Click **Publish**. For more information, see *Publishing Dialog*.

Checkpoint: Done!

If you walked through this workflow in the application, you have imported, cleansed, transformed, and run a job to generate transformed results. Hopefully, this process has given you insight into the easy-to-use tools at your disposal through Trifacta Wrangler Pro and how quickly they can be used to transform imported datasets into clean and actionable data for use across the enterprise.
