

# Admin Console

Through the Admin console, admin users can modify settings and users at the system and workspace level, as well as run health checks and manage the license for Cloud Dataprep by TRIFACTA® INC.. Select **User menu > Admin console**.

**NOTE:** You must be an administrator to access this feature.

## Dataprep settings

**NOTE:** This option is available only to project administrators.

Review and edit settings applicable to the project. For more information, see *Dataprep Project Settings Page*.

## Service accounts

**Feature Availability:** This feature is available in Cloud Dataprep Premium by TRIFACTA INC. only.

**NOTE:** This option is available only to project administrators.

Specify service accounts under which to run jobs on Cloud Dataflow for individual project users. For more information, see *Service Accounts Page*.
