

# API EMRClusters Get Count v4

This is the latest version of the APIs.

## Contents:

- *Required Permissions*
- *Request*
- *Response*
- *Reference*

Get count of EMR cluster Ids accessible by the authenticated user.

**NOTE:** APIs for EMR clusters apply only to instances of the Trifacta® platform that are integrated with Amazon EMR clusters. These APIs can be used to manage switching between EMR clusters when needed.

**NOTE:** There can be only one EMR cluster registered with the platform at any time. The registered cluster is always the active one.

**Version:** v4

## Required Permissions

**NOTE:** Each request to the Trifacta® platform must include authentication credentials. See *API Authentication*.

## Request

**Request Type:** GET

## Endpoint:

```
/v4/emrClusters/count
```

## Request URI - Example:

```
/v4/emrClusters/count
```

## Request Body:
