

API Flows Package Get DryRun v4

This is the latest version of the APIs.

Contents:

- *Required Permissions*
- *Request*
- *Response*
- *Reference*

Performs a dry-run of generating a flow package and exporting it, which performs a check of all permissions required to export the package.

If they occur, permissions errors are reported in the response.

Version: v4

Required Permissions

NOTE: Each request to the Trifacta® platform must include authentication credentials. See *API Authentication*.
