

API Endpoints for GDP Premium

Feature Availability: This feature is available in Dataprep Premium by Trifacta® only.

The following endpoints are available for Dataprep Premium by Trifacta®.

To access the reference documentation for each available API endpoint and method, select **Help menu > API Documentation** in the Trifacta application.

Connection

Path	Description	Documentation URL
POST /v4/connections	Create connection	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connections	List connections	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connections/count	Count connections	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connections/:id	Get connection	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/connections/:id	Delete connection	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connections/:id/status	Get connection status	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

ConnectorMetadata

Path	Description	Documentation URL
POST /v4/connectorMetadata/:connector/overrides	Create overrides for connector	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connectorMetadata/:connector/overrides	Get overrides for connector	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/connectorMetadata/:connector/overrides	Delete all custom overrides for a connector	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connectorMetadata/:connector	Get connector metadata information	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/connectorMetadata/:connector/defaults	Get default connector metadata information	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Flow

Path	Description	Documentation URL
POST /v4/flows	Create flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows	List flows	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/flows/package	Import Flow package	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/flows/package/dryRun	Import Flow package - Dry run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/flows/:id/copy	Copy Flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/flows/:id/run	Run Flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows/count	Count flows	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows/:id	Get flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/flows/:id	Patch flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/flows/:id	Delete flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

GET /v4/flows/:id/package	Export flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows/:id/package/dryRun	Export flow - Dry run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flowsLibrary	Flow Library (list)	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flowsLibrary/count	Flow Library (count)	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows/:id/inputs	List Flow inputs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flows/:id/outputs	List Flow outputs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/folders/:id/flows	List flows in folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/folders/:id/flows/count	Count flows in folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/flows/:id/replaceDataset	Replace dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

FlowNode

Path	Description	Documentation URL
POST /v4/flowNodes/:id/commitEdges	Create new edges	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

FlowPermission

Path	Description	Documentation URL
POST /v4/flows/:id/permissions	Share Flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

FlowRun

Path	Description	Documentation URL
GET /v4/flowRuns/:id	Get flow run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flowRuns/:id/status	Get Flow Run Status	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flowRuns/:id/jobGroups	Get JobGroups for Flow Run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

FlowRunParameterOverride

Path	Description	Documentation URL
POST /v4/flowRunParameterOverrides	Create flow run parameter override	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/flowRunParameterOverrides/:id	Get flow run parameter override	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/flowRunParameterOverrides/:id	Patch flow run parameter override	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/flowRunParameterOverrides/:id	Delete flow run parameter override	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Folder

Path	Description	Documentation URL
POST /v4/folders	Create folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/folders	List folders	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/folders/count	Count folders	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/folders/:id	Get folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

PATCH /v4/folders/:id	Patch folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/folders/:id	Delete folder	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

ImportedDataset

Path	Description	Documentation URL
POST /v4/importedDatasets	Create imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/importedDatasets/:id/addToFlow	Add Imported Dataset to Flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/importedDatasets/:id/copy	Copy imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/importedDatasets/:id	Get imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PUT /v4/importedDatasets/:id	Update imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/importedDatasets/:id	Patch imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/importedDatasets/:id	Delete imported dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/datasetLibrary	List Datasets	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/datasetLibrary/count	Count Datasets	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Job

Path	Description	Documentation URL
GET /v4/jobs/:id/status	Get Job Status	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

JobGroup

Path	Description	Documentation URL
POST /v4/jobGroups	Run Job Group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups	List job groups	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id	Get job group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/profile	Get Profile Information for Job Group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/pdfResults	Get PDF Results for Job Group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/status	Get JobGroup Status	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/inputs	Get Job Group Inputs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/outputs	Get Job Group Outputs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobLibrary	List Job Groups	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobLibrary/count	Count Job Groups	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/jobs	Get Jobs for Job Group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/jobGroups/:id/publications	Get Publications for Job Group	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Macro

Path	Description	Documentation URL
POST /v4/macros/package	Import Macro Package	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/macros/:id/package	Get Macro Package	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Misc

Path	Description	Documentation URL
GET /v4/open-api-spec	Get OpenAPI specification	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

OutputObject

Path	Description	Documentation URL
POST /v4/outputObjects	Create output object	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/outputObjects	List output objects	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/outputObjects/count	Count output objects	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/outputObjects/:id	Get output object	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/outputObjects/:id	Patch output object	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/outputObjects/:id	Delete output object	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/outputObjects/:id/inputs	List inputs for Output Object	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Person

Path	Description	Documentation URL
POST /v4/people/dataflowOptions/:type	Set Dataflow option for self	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/people/current/dataflowOptions/:type	Set Dataflow option for self	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/people/:email/dataflowOptions/ Unknown macro: {type}	Set Dataflow option for another person	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Plan

Path	Description	Documentation URL
POST /v4/plans/:id/run	Run plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/plans/:id/permissions	Share Plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/:id/permissions	List permissions for plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/plans/package	Import plan package	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans	List plans	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/count	Count plans	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/:id/runParameters	List run parameters	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/:id/full	Read plan with all attributes	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/:id/schedules	List plan schedules	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/plans/:id/package	Export plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/plans/:id	Update plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/plans/:id	Delete plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/plans/:id/permissions/ Unknown macro: {subjectId}	Delete plan permissions for a user	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

PlanNode

Path	Description	Documentation URL
POST /v4/planNodes	Create plan node	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/planNodes/:id/runParameters	List run parameters for a plan node	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/planNodes/:id	Delete plan node	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

PlanOverride

Path	Description	Documentation URL
POST /v4/planOverrides	Override a parameter in a plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PUT /v4/planOverrides/:id	Update the value of a parameter override in a plan	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

PlanSnapshotRun

Path	Description	Documentation URL
POST /v4/planSnapshotRuns/:id/cancel	Cancel a plan execution	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/planSnapshotRuns	List plan snapshot runs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/planSnapshotRuns/count	Count plan snapshot runs	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/planSnapshotRuns/:id	Get plan snapshot run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/planSnapshotRuns/:id/schedule	Get schedule for plan run	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Publication

Path	Description	Documentation URL
POST /v4/publications	Create publication	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/publications	List publications	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/publications/count	Count publications	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/publications/:id	Get publication	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/publications/:id	Patch publication	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/publications/:id	Delete publication	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

Workspace

Path	Description	Documentation URL
POST /v4/workspaces/:id/delete-configuration	Delete Workspace configuration settings	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/workspaces/:id/configuration	Get workspace configuration	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/workspaces/:id/configuration	Save Workspace Configuration	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/workspaces/:id/configuration-schema	Get configuration schema	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/workspaces/current/configuration-schema	Get current configuration schema	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

PATCH /v4/workspaces/current/transfer	Transfer User Assets	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
---------------------------------------	----------------------	---

WrangledDataset

Path	Description	Documentation URL
POST /v4/wrangledDatasets	Create wrangled dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/wrangledDatasets	List wrangled datasets	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
POST /v4/wrangledDatasets/:id/addToFlow	Add wrangled dataset to flow	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/wrangledDatasets/count	Count wrangled datasets	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/wrangledDatasets/:id	Get wrangled dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/wrangledDatasets/:id	Patch Wrangled Dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/wrangledDatasets/:id	Delete wrangled dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/wrangledDatasets/:id/primaryInputDataset	Get Input Dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PUT /v4/wrangledDatasets/:id/primaryInputDataset	Swap Input Dataset	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>

WriteSetting

Path	Description	Documentation URL
POST /v4/writeSettings	Create writesetting	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/writeSettings	List write settings	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/writeSettings/count	Count write settings	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
GET /v4/writeSettings/:id	Get write setting	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
PATCH /v4/writeSettings/:id	Patch write setting	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
DELETE /v4/writeSettings/:id	Delete write setting	Dataprep by Trifacta API Reference docs: <i>Premium</i> <i>Standard</i>
