

API ImportedDatasets Patch v4

This is the latest version of the APIs.

Contents:

- *Required Permissions*
- *Request*
- *Response*
- *Reference*

Modify the specified imported dataset.

Version: v4

Required Permissions

NOTE: Each request to the Trifacta® platform must include authentication credentials. See *API Authentication*.

Request

Request Type: PATCH

Endpoint:

```
/v4/importedDatasets/<id>
```

where:

Parameter	Description
<id>	Internal identifier for the imported dataset

Request URI - Example:

```
/v4/importedDataset/8
```

Request Body:

Only the name and description properties should be modified. Modified properties must be included in the request. In the following example, the name and the description of the imported dataset are modified:

```
{
  "name": "My Imported DS"
  "description": "This is my imported dataset."
}
```

Response

Response Status Code - Success: 200 - OK

Response Body Example:

```
{
  "id": 8,
  "updater": {
    "id": 1
  },
  "updatedAt": "2019-02-14T23:19:27.648Z"
}
```

Reference

For more information on the properties of an imported dataset, see *API ImportedDatasets Get v4*.
