

Azure Install Create Key Vault

Please complete the following steps in the Azure portal to create a Key Vault and to associate it with the Trifacta registered application.

NOTE: A Key Vault is required for use with the Trifacta platform.

Create Key Vault in Azure

Steps:

1. Log into the Azure portal.
2. Goto: <https://portal.azure.com/#create/Microsoft.KeyVault>
3. Complete the form for creating a new Key Vault resource:
 - a. Name: Provide a reasonable name for the resource. Example:

```
<clusterName>-<applicationName>-<group/organizationName>
```

Or, you can use `trifacta`.

- b. Location: Pick the location used by the HDI cluster.
 - c. For other fields, add appropriate information based on your enterprise's preferences.
4. To create the resource, click **Create**.

NOTE: Retain the DNS Name value for later use.

Enable Key Vault access for the Trifacta platform

Steps:

In the Azure portal, you must assign access policies for application principal of the Trifacta registered application to access the Key Vault.

Steps:

1. In the Azure portal, select the Key Vault you created. Then, select **Access Policies**.
2. In the Access Policies window, select the Trifacta registered application.
3. Click **Add Access Policy**.
4. Select the following secret permissions (at a minimum):
 - a. Get
 - b. Set
 - c. Delete
5. Select the Trifacta application principal.
6. Assign the policy you just created to that principal.
