

Home Page

Contents:

- *In-App Chat*
- *Recently Updated*
- *Recent Runs*
- *Resources*
- *Left Nav Bar*
 - *Flows*
 - *Library*
 - *Jobs*
 - *Help menu*
 - *User menu*

From the Home page, you can create or access your flows, datasets, and jobs, as well as configure settings and find additional resources.

Tip: Click the logo at the top of the menu bar to return to the Home page.

The screenshot shows the Trifacta Wrangler Home Page. At the top center is the Trifacta Wrangler logo. Below it, a welcome message reads "Welcome back, S!". The main content area is divided into two sections: "Recently Updated" and "Recent Runs".

Recently Updated: A table with two rows. The first row shows "POS-r01 Flow" updated on "10/19/2020". The second row shows "Flow2" updated on "01/17/2020". A "View Flows" link is on the right.

Recent Runs: A table with two rows. Both rows show a "Completed" status (indicated by a green checkmark), the flow name "POS-r01", the user "Steve Olson (you)", and the date "01/17/2020" with a note "Ran for 3 minutes". A "View more" link is on the right.

Right Sidebar: Contains buttons for "Import Data" and "Create Flow", and a "Resources" section with links to "Trifacta Academy", "Quick Help", "Events & webinars", "Community", and "Wrangle Exchange".

Figure: Home Page

From the Home page, you can quickly access your recent activities in Trifacta Wrangler or jump to creating flows and importing datasets.

Tip: When keyboard shortcuts are enabled, press ? in the application to see the available shortcuts. Individual users must enable them. See *User Profile Page*.

- **Import Data:** Import new datasets into Trifacta Wrangler. See *Import Data Page*.
- **Create Flow:** Create a new flow to hold your datasets. See *Create Flow Page*.

Tip: Use the controls on the left side of the screen to access other areas of the application. For more information, see Menu Bar below.

In-App Chat

Have a question about the product? Use the new in-app chat feature to explore content or ask a question to our support staff. If you need assistance, please reach out!

Recently Updated

Access the flows that have been recently changed. Click the flow name to open it. See *Flow View Page*.

Tip: When an object within a flow has been changed, its timestamp here is updated, so the Home page becomes an easy location where you can monitor changes to the flows to which you have access. Monitored changes include editing a recipe or adding or removing datasets.

Actions:

- **View more:** See all of your flows.
- For more information on these options, see *Flows Page*.

Recent Runs

Recent jobs:

Review jobs that you have been recently queued or completed in Trifacta Wrangler.

- Click a job ID to view its details. See *Job Details Page*.
- Click the name of the flow to open it. See *Flow View Page*.
- Click the name of a recipe to select it in Flow View. See *Flow View Page*.

Actions:

- **Cancel job:** If present, you can cancel a job in progress.

NOTE: Some jobs cannot be canceled through the Trifacta application.

- **View more:** See all of your jobs.
- For more information on these options, see *Jobs Page*.

Resources

Use the links on the right to explore available resources for Trifacta Wrangler.

Left Nav Bar

From the left side of the screen, you can access the top-level pages of the Trifacta application.

Flows

Use the Flows page to create and manage your flows. See *Flows Page*.

- A flow is a container for one or more datasets. See *Create Flow Page*.

Library

From the Library page, you create and manage your datasets. See *Library Page*.

- You can import datasets to begin creating your transformations. See *Import Data Page*.
- Click the linked name of a dataset to transform the data. See *Transformer Page*.

Jobs

After you finish building your transformation recipe, you can run jobs to execute the recipe against your dataset. The Jobs page shows status and history of your jobs. See *Jobs Page*.

Help menu

Access help resources, including documentation, training, and more.

- **Quick Help:** Ask questions and search for answers within the Trifacta application.
- **Community:** Explore the online community.
- **Wrangle Exchange:** Explore and download additional resources, such as macros, from the online Wrangle Exchange.
- **Documentation:** Access online product documentation.

- **Trifacta Academy:** Explore the training programs and certifications available through Trifacta Academy. Wrangler certification is free.

- **Report issue:** Report an issue to *Trifacta Support*.
- **About:** Review information about the product, build number, and licensing information.
- **Keyboard shortcuts:** Review available keyboard shortcuts for the Trifacta application.
 - You must enable keyboard shortcuts. See *User Profile Page*.

User menu

Under the User icon, you can modify settings specific to your account.

Workspace chooser

If you are a member of multiple workspaces, you can switch between them. Select another workspace from the sub-menu.

If you do not see a specific workspace in the sub-menu, please contact an administrator for that workspace to request an invitation.

Preferences

Review preferences for your account and other settings. See *Preferences Page*.

- **Profile:** Edit your profile. See *User Profile Page*.
