

# API Deployments Get Release List v3

## Contents:

- *Required Permissions*
  - *Request*
  - *Response*
  - *Reference*
- 

Get the list of releases for the specified deployment for the authenticated user.

**NOTE:** Deployments and releases pertain to Production instances of the Trifacta® platform. For more information, see *Overview of Deployment Management*.

**Version:** v3

## Required Permissions

**NOTE:** Each request to the Trifacta® platform must include authentication credentials. See *API Authentication*.

## Request

**Request Type:** GET

## Endpoint:

```
/v3/deployments/:id?embed=releases
```

## Endpoint with paged retrieval:

By default, this endpoint returns results in sets of 25.

You can apply query parameters to change the size of the default set and to page through result sets. The following example queries for results 100 at a time. In this case, the query asks for results 3-102:

```
/v3/deployments/:id?embed=releases&limit=100&offset=2
```

If the count of retrieved results is less than the limit, you have reached the end of the results.

## Request Body:

Empty.

## Response

**Response Status Code - Success:** 200 - OK

## Response Body Example:

```
{
  "id": 1,
  "name": "Payment10-SteveO",
  "createdAt": "2017-09-26T07:00:00.000Z",
