

Admin Console

Contents:

- *Users*
 - *Roles*
 - *Plans and billing*
 - *Workspace usage*
 - *Workspace settings*
 - *AWS settings*
 - *Environment parameters*
 - *OAuth 2.0 clients*
-

Through the Admin console, admin users can modify settings and users at the system and workspace level, as well as run health checks and manage the license for Trifacta® SaaS. Select **User menu > Admin console**.

NOTE: You must be an administrator to access this feature.

Users

NOTE: This option is available only to workspace administrators.

Invite, suspend, and remove users of your workspace. Change roles, as needed. For more information, see *Workspace Users Page*.

Roles

Create roles and assign permissions to them for access to objects created in the workspace. For more information, see *Workspace Roles Page*.

Plans and billing

View and manage your subscription plan, billing information, and number of licensed users. For more information, see *Plans and Billing Page*.

Workspace usage

Review metrics and limits on usage in the workspace. See *Workspace Usage Page*.

Workspace settings

NOTE: This option is available only to workspace administrators.

Review and edit settings applicable to the workspace. For more information, see *Workspace Settings Page*.

AWS settings

If per-user access to AWS has been enabled, individual users must apply personal access credentials to their account to gain access to resources on S3 through AWS. For more information, see *AWS Settings Page*.

Environment parameters

Define parameters that apply to the entire environment and are available for use by all users. For more information, see *Environment Parameters Page*.

OAuth 2.0 clients

Workspace administrators can create and manage clients for accessing an OAuth 2.0 app in an external platform such as a relational datastore.

NOTE: Before you create an OAuth 2.0 client, you must have created an OAuth 2.0 app in the target system, to which your client can connect. For more information, see *Enable OAuth 2.0 Authentication*.

For more information, see *OAuth 2.0 Clients Page*.
