### Connection Details Panel

- *Key Fields*
- *Actions*

Through the Connections page, you can add new connections or modify the connections that you have already created. From the left nav bar, click the Connections icon.

**NOTE:** Access to the Connections page in the application and privileges on connections is governed by roles in your workspace. For more information, please contact your workspace administrator.

Name	Type	Shared	Owner	Last Updated
postgres	postgres	Private	SteveO (you)	Today at 5:28 PM
hive	hive	Public	Administrator	Today at 1:10 AM

**Figure: Connections page**

## Actions

**Create:** Click **Create Connection** to create a new connection. See *Create Connection Window*.

**Filter:** In separate tabs, you can review connections that you own, that are shared with you, or all connections to which you have access.

**Search:** Search connections by name.

**Review details:** Select a connection or click the icon to review details through the right-side panel.

## Key Fields

**Name:** Display name for the connection.

**NOTE:** If the connection has been shared, you can review whether its credentials have also been shared.

**Type:** The type of connection.

**NOTE:** After you create a connection, you cannot modify its type.

For more information, see *Connection Types*.

**Shared:** Review the sharing status of the connection:

- Global - connection has been shared with all users of the workspace.

**NOTE:** To make a global connection private, you must delete the connection and recreate it.

- X Users:
  - If this value is 1, the connection is private.
  - If this value is greater than 1, the connection has been shared.  
Click the link in this column to review sharing status. See *Share Connection Dialog*.

### Context menu actions

**View Details:** Open the details of the connection in the side panel. See below.

**Edit:** If you own the connection, you can review and modify the connection.

- If the connection has been shared with you, you can edit it to modify the credentials.
- Administrators can edit public connections.
- See *Create Connection Window*.

**Share:** For connections that you own, you can modify the sharing status of them. See *Share Connection Dialog*.

**Delete:** Delete the connection.

**NOTE:** This option is only available to the connection owner if the connection is not used for any datasets.

### Connection Details Panel

When a connection is selected, you can review its details and make modifications as needed through the panel on the right.
