

Preferences Page

Contents:

- *Profile*
 - *Account*
 - *Sessions*
 - *Data usage*
-

From the Preferences page, you can manage aspects of your user account and other settings. Select **Help menu > Preferences**.

Profile

Review and manage your user profile. For more information, see *User Profile Page*.

Account

Change your password and set your locale among other preferences. See *Account Settings Page*.

Sessions

Review the list of devices that have logged into your account. You can revoke any unrecognized and unauthorized sessions. For more information, see *Sessions Page*.

Data usage

Review your current usage of data storage and how it compares to specified limits on your account. For more information, see *Data Usage Page*.
