

Preferences Page

Contents:

- *User Preferences*
 - *Profile*
 - *Account*
 - *Email notifications*
 - *Workspace Preferences*
 - *Storage*
 - *Databricks personal access token*
 - *Access tokens*
-

From the Preferences page, you can manage aspects of your user account and other settings. Select **Help menu > Preferences**.

User Preferences

Profile

Review and manage your user profile. For more information, see *User Profile Page*.

Account

Change your password and set your locale among other preferences. See *Account Settings Page*.

Email notifications

Configure your personal preferences on receiving email notifications about activities in the product.

NOTE: This feature requires access to an SMTP server to send emails. For more information, see *Enable SMTP Email Server Integration*.

NOTE: This feature may need to be enabled in your workspace. See *Workspace Settings Page*.

For more information, see *Email Notifications Page*.

Workspace Preferences

Storage

Review and modify the locations where you store data.

If you are connecting to AWS resources, you can modify your authentication credentials.

See *Storage Config Page*.

Databricks personal access token

Each user must save a Databricks Personal Access Token to their user account. See *Databricks Settings Page*.

Access tokens

Create and manage tokens for access to the APIs for Trifacta Self-Managed Enterprise Edition.

Tip: Access tokens provide a simple and secure method of consistent access to the externally available APIs.

For more information, see *Access Tokens Page*.
