

Access Tokens Page

From the Access Token page, you can generate and manage access tokens that apply to your account. Access tokens can be used when accessing the REST APIs.

Tip: Access token usage is the preferred method of authenticating from API. See Trifacta API Reference docs: [Enterprise](#) | [Professional](#) | [Premium](#)

NOTE: Workspace administrators can choose to enable creation and use of access tokens to individual workspace users. For more information, see [Workspace Settings Page](#).

NOTE: Workspace administrators can delete the access tokens of other users.

Token ID	Description	Status	Created	Expires	Last used
0bc1d49f-5475-4c62-a0ba-6ad269389ada	new token	Active	2019-01-15 12:58:28	2020-01-15 12:58:28	Never Used

Figure: Access Tokens Page

Actions:

- **Generate New Token:** Click to generate a new access token for your user account. See below.

Columns:

- **Token ID:** Internal identifier for the token

NOTE: This is not the token itself. That value is exposed when you create the token and must be retained for any use outside of the Trifacta application.

- **Description:** User-provided description of the token
- **Status:** Current status of the token:
 - Active - Token is active and can be used for access.
 - Expired - Token has expired after its expiration timestamp has been reached.
- **Created:** Timestamp for when the token was created.
- **Expires:** Timestamp for when the token expires.
- **Last Used:** Timestamp for when the token was last used.

Context menu:

- **Delete Token:** Click the delete the token.

Deleting a token cannot be undone.

NOTE: If you delete an active token, any API usage that references the token no longer works.

Generate Token

When you generate a token, you can provide the following information.

Generate Token

Lifetime (days)

365

Set lifetime to -1 to have the token never expire.

Description (optional)

Cancel Generate

Figure: Generate Token Dialog

- **Lifetime:** Enter the number of days that you would like to use this token without renewal.
 - If the token expires, a new one must be created. You can generate a new token at any time.
 - You can generate any number of tokens.

Tip: Depending on your environment, you may be able to set this value to -1 to never expire the token.

- **Description:** (Optional) you can provide a user-friendly description of the purpose of the token. This value is for display purposes only.

To create the token, click **Generate**.

After the token is generated, it is automatically activated. You can have multiple active tokens.

You must copy the token out of the application. Click **Copy Token to clipboard** to copy the text value of the token.

For security purposes, after you close the My Token screen, the token is no longer accessible. You cannot reopen this dialog. You must copy this value and store it in a secure place for later use.
