

API Reference

 **Feature Availability:** This feature is not available in Dataprep by Trifacta Starter Edition only.

This section contains reference information on the REST APIs that are made available by Dataprep by Trifacta®.

Access to API docs locally

NOTE: URLs to API endpoint documentation are case-sensitive.

To access the API documentation for each API endpoint and method that is available to your specific user account, select **Help menu > API Documentation** in the Trifacta application.

NOTE: This API documentation portal displays only the API endpoints based on your specific user account and the features enabled in your Trifacta instance. Additional API endpoint documentation may be available at <https://api.trifacta.com>. For more information on the differences between these documentation portals, see *API Documentation Versions*.
