

# WASB Browser

**NOTE:** For more information on support for Azure with this release, please contact your Trifacta representative.

In the Designer Cloud® application , the WASB browser enables you to browse, specify, and filter the files to which you have access in the HDInsight cluster to which the Designer Cloud powered by Trifacta platform is connected.

The WASB browser appears when you choose to import a dataset from WASB. See *Import Data Page*.

**NOTE:** Interactions with WASB are determined by user permissions and features enabled in the Designer Cloud powered by Trifacta platform . For more information, see *Using WASB*.

## Browse WASB:

Use the links and icons to browse for files and folders in the WASB tree structure. Use the breadcrumb trail to back out.

**NOTE:** Avoid using the Back button on your browser, which exits the WASB browser without applying changes to your configuration.

Identifier	Type	Description
------------	------	-------------

  <span data-bbox="305 163 415 193">example/</span>	Folder	<ul style="list-style-type: none"> <li>• Click the Plus icon to select all readable files in this folder.</li> <li>• Click the text link to open the folder and browse further.</li> </ul> <div data-bbox="634 233 1455 348" style="border: 1px solid #c8e6c9; padding: 5px; margin: 10px 0;"> <p><b>Tip:</b> When you open a new folder, a reference to it is added to the Path value. You can modify the path value manually, which may be a faster way to navigate up a deep directory structure.</p> </div> <div data-bbox="634 373 1455 453" style="border: 1px solid #c8e6c9; padding: 5px; margin: 10px 0;"> <p><b>Tip:</b> Sizes are displayed next to files. They are not displayed next to folders.</p> </div>
  <span data-bbox="313 541 415 571">fruits.txt</span>	File	Click the Plus icon to select this file.

### Specify WASB Path:

In the WASB browser, you can specify an explicit path to resources. Click the Pencil icon, paste the path value, and click **Go**.

### Filter Files:

To display a subset of files, enter a string in the Search box. The filter is applied as you type and matches anywhere in the name of a currently displayed file or folder.
