

# API Connections Permissions Get User v4

 This is the latest version of the APIs.

## Contents:

- *Required Permissions*
- *Request*
- *Response*
- *Reference*

Retrieve the user permissions to a specified connection.

For more information on connections, see *Connection Types*.

**Version:** v4

## Required Permissions

The authenticated user must be an admin.

 **NOTE:** Each request to the Designer Cloud powered by Trifacta® platform must include authentication credentials. See <https://api.trifacta.com/ee/6.0/index.html#section/Authentication>.

## Request

**Request Type:** GET

## Endpoint:

```
/v4/connections/<cid>/permissions/
```

Parameter	Description
<cid>	Internal identifier of the connection to retrieve.

## Request URI - Example:

```
/v4/connections/7/permissions/
```

## Request Body:

None.

## Response

**Response Status Code - Success:** 200 - OK

## Response Body Example:

```
[
  {
    "name": "Administrator",
    "email": "admin@trifacta.local",
    "id": 1,
    "connectionpermission": {
      "connectionId": 7,
      "personId": 1,
      "role": "owner"
    }
  },
  {
    "name": "Joe Guy",
    "email": "jguy@example.com",
    "id": 6,
    "connectionpermission": {
      "connectionId": 7,
      "personId": 6,
      "role": "readOnly"
    }
  }
]
```

## Reference

Property	Description
connectionId	Internal identifier of the connection
personId	Internal identifier of the user who has access to the connection
role	Role assigned to the user for the connection. Values: <ul style="list-style-type: none"><li>owner - creator and owner of the connection</li><li>readOnly - user with whom the connection has been shared. Users cannot modify the connection.</li></ul>

For more information, see *API Connections Get v4*.
